

# BenePhite® Expand

## Bionutrition

BenePhite® Expand is a phosphorus product built with Transit® biostimulant. By pairing phosphite, a highly plant-available form of phosphorus, with organic acids and key complementary nutrition, BenePhite Expand delivers a readily available nutritive boost to enhance photosynthetic activity for improved canopy development and fruit quality.

### INCREASED CANOPY DEVELOPMENT

Supports new leaf growth for robust canopy development.

### IMPROVED FRUIT QUALITY

Enhances phosphate mobility for increased cell wall strength to support fruit firmness.

### REDUCED RISK OF PHYTOTOXICITY

Formulated to reduce the risk of phytotoxicity.

## Formulation

BenePhte® Expand

## Guaranteed Analysis

Total Phosphoric Acid (P <sub>2</sub> O <sub>5</sub> ) .....	19.0%
Cobalt (Co) .....	0.05%
Iron (Fe) .....	0.75%
Manganese (Mn) .....	1.75%
Molybdenum (Mo) .....	0.10%
Zinc (Zn) .....	4.0%

Derived from: Phosphorous acid, zinc phosphite, manganese phosphite, iron phosphite, cobalt nitrate, and sodium molybdate.

Guaranteed Analysis may vary in accordance with state registration requirements.

## Application Information

Method	Rate	Timing
Foliar	0.5 – 4 qt/ac	Repeat every 2 – 3 weeks
Soil	2 – 6 qt/ac	

Always read and follow label instructions. For the full product warranty, terms and conditions, please visit [www.warrantydetails.net](http://www.warrantydetails.net), or contact us at 1-877-696-4204.
