

SuperSede® Corn

Biostimulant Seed Treatment

PRODUCT BENEFITS

SuperSede® Corn is a seed treatment powered by Transit® biostimulant with complementary nutrition that increases germination and supports early root growth for uniformity and establishment.

SuperSede Corn supports enhanced root growth for a larger root structure.

BIOSTIMULANT BENEFITS

BETTER GERMINATION

Improves germination rate for plant uniformity and stand count

ENHANCED ROOT GROWTH

Amplifies early root growth for resilient plants with improved access to nutrients and water

COMPLEMENTARY NUTRITION

Formulated with key nutrients to further aid seedling growth

SuperSede® Corn

Biostimulant Seed Treatment

VALENTBIOSCIENCES.COM/BIOSTIMULANTS
